

Industry Application Drone

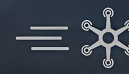

# Block Quadcopter

wheelbase:  
**1250mm**

Endurance:  
**120min**

Max Cruising Speed:  
**25m/s**

Max payload:  
**10kg**

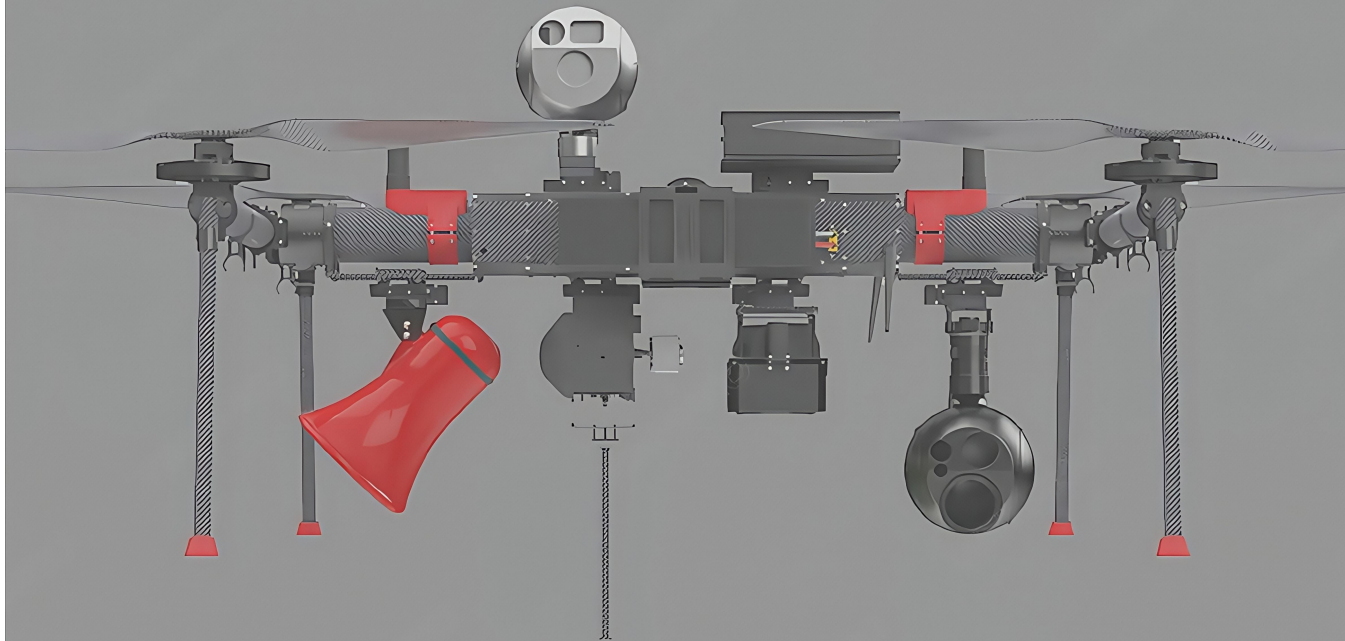

Max take-off weight:  
**20kg**

Wind Resistance:  
**7-8 level**

# Suitable For Multiple Payloads

There are multiple mounting points on the frame,  
and with our Pandora multi-functional quick release system,  
up to 6 load devices can be mounted on the drone at the same time.

# Dust Resistant & Water Proof

Full carbon fiber frame,  
flying become possible even in rainy and snowy.

MAX **45°C**

## High Performance Power system

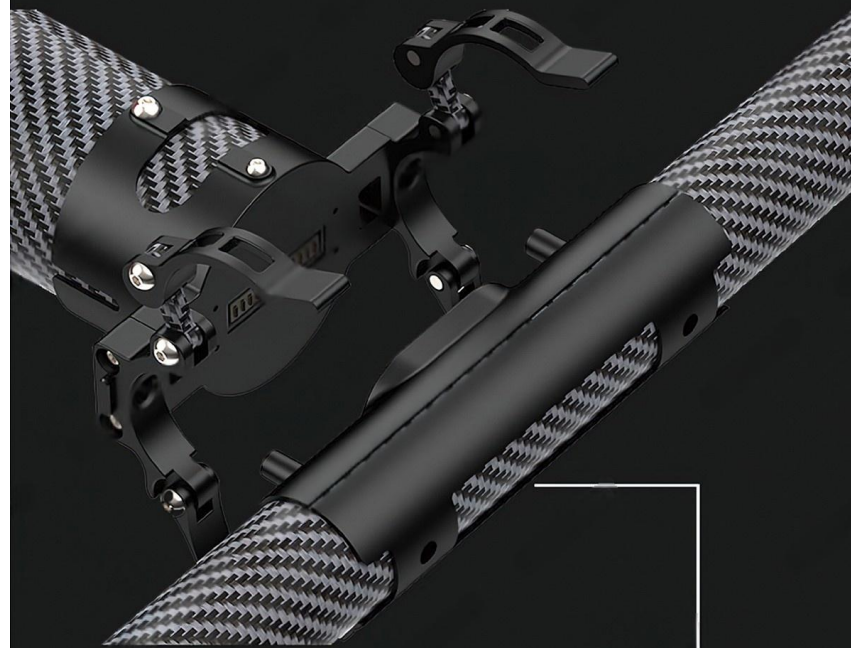

Open structure, can speed up air flow, improve heat dissipation performance;  
Safer and more reliable to work calmly during -20°C to +45°C.

MIN **-20°C**

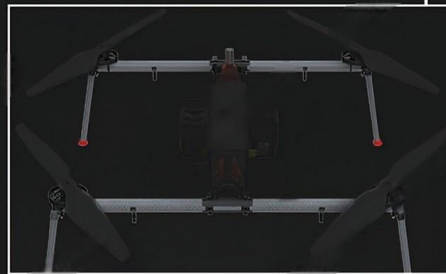

## Light Weight & High Strength Arms

Made of high quality carbon fiber tube, Only two arms and can be used without distinction, easy to install and remove.

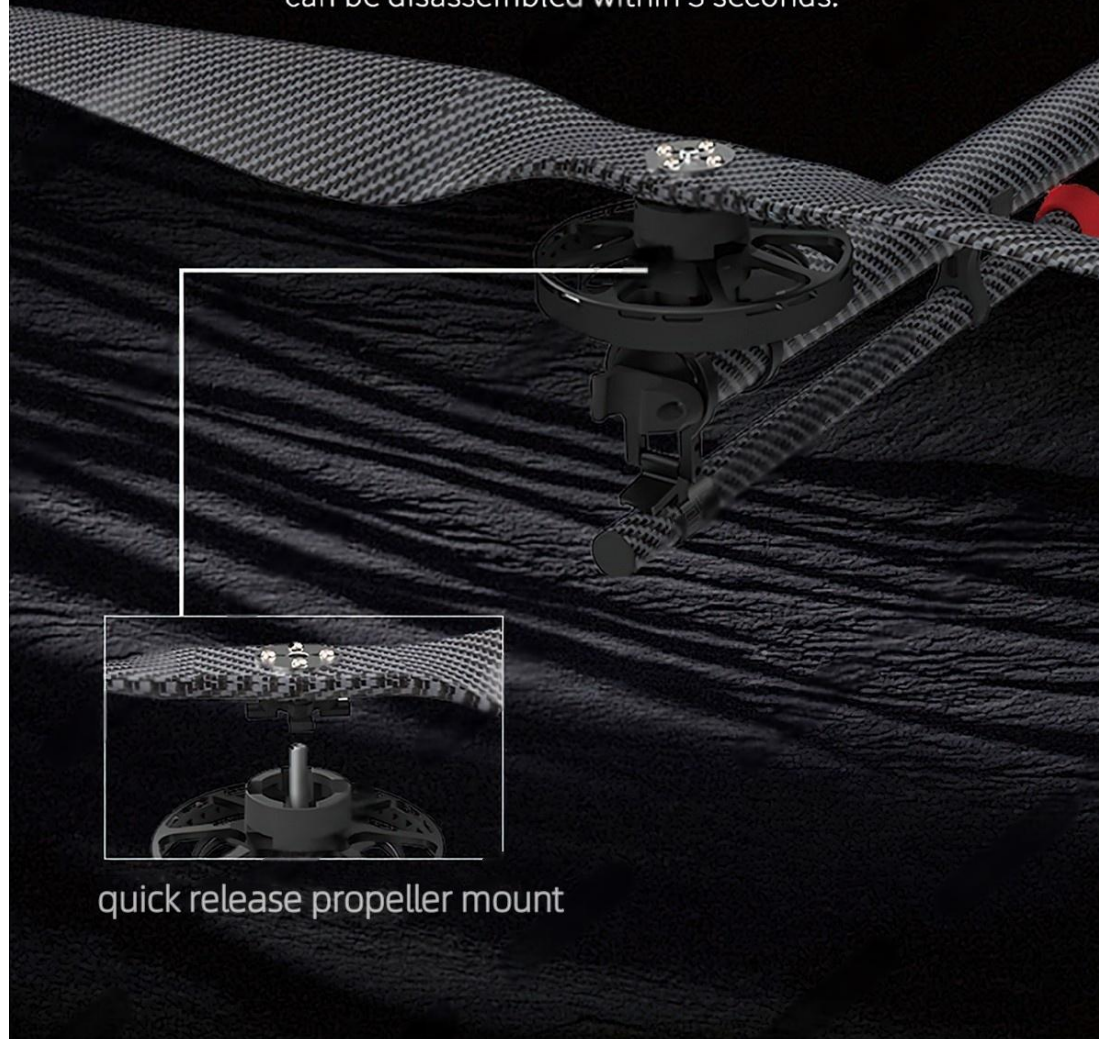

TWO ARMS

# Ultralight Carbon Fiber Propeller

High efficiency and stability, single propeller only about 85g.

Standard with quick release propeller mount adapter,  
can be disassembled within 3 seconds.

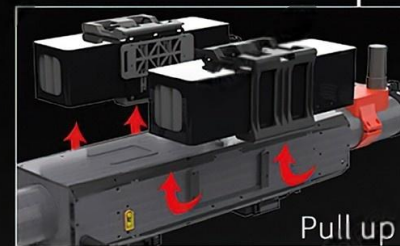

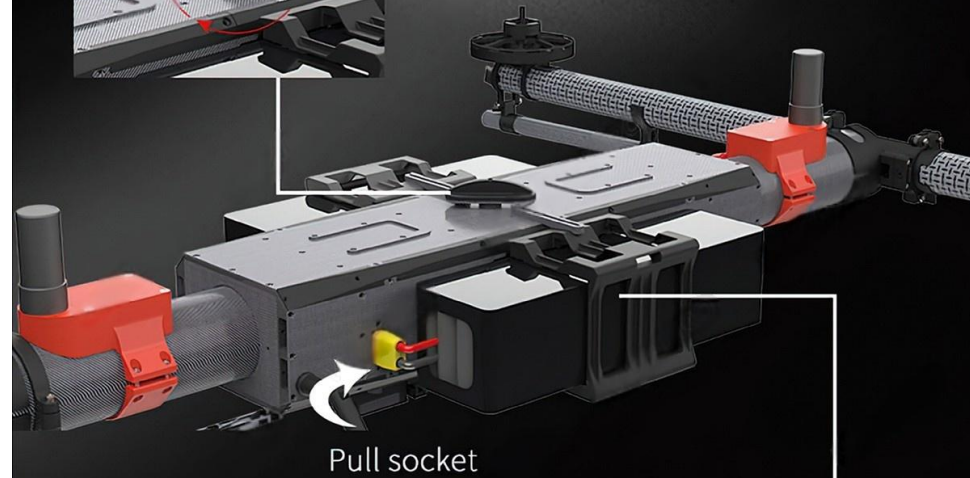

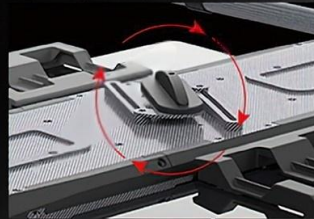

quick release propeller mount

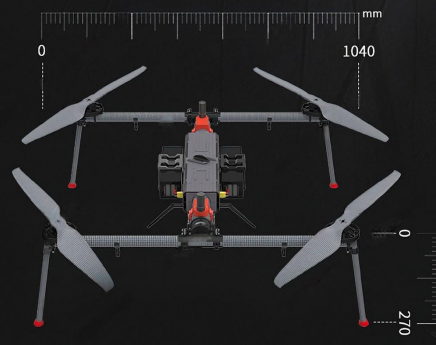

# Large Capacity Battery

Good heat dissipation, long endurance, support quick disassembly.

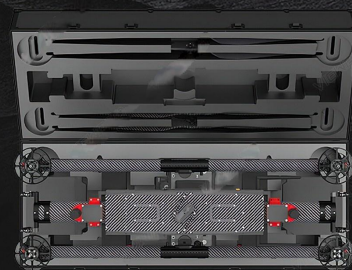

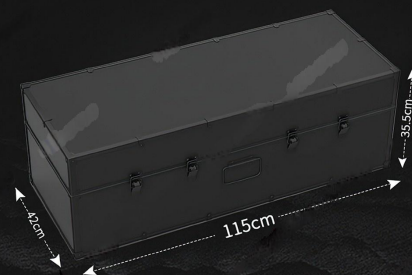

Rotary the switch

## Size

Modular design, Propellers, arms and the landing gears can be removed or folded quickly. All pre-flight preparations can be completed within 3 minutes.

## Packing List

Keel quadcopter frame\*1

Carrying Case \*1

Battery Charger \*1

ESC\*4

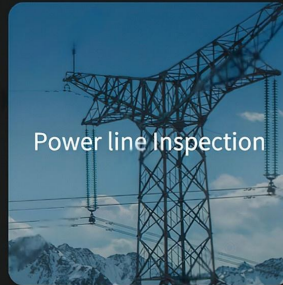

Propeller\*4

Battery \*2

## Application Area

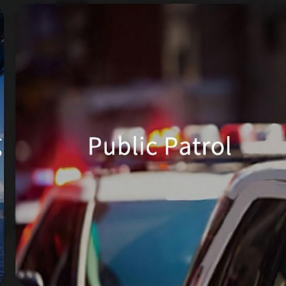

Power line Inspection

Water Ecological Monitoring

Bridge Inspection Planning

Public Patrol

Geographical Mapping
