

MoneyproM240

Smart eVTOL drone MoneyproM240
professional mapping and survey UAV

Wingspan: 2400mm

Flight time: 130min (1kg payload)

MTOW: 7KG

Maximum load: 1.2KG

Maximum speed: 100KM/H

Ceiling height: 4000M

Flight radius: 100KM

Positioning accuracy: 0.1M

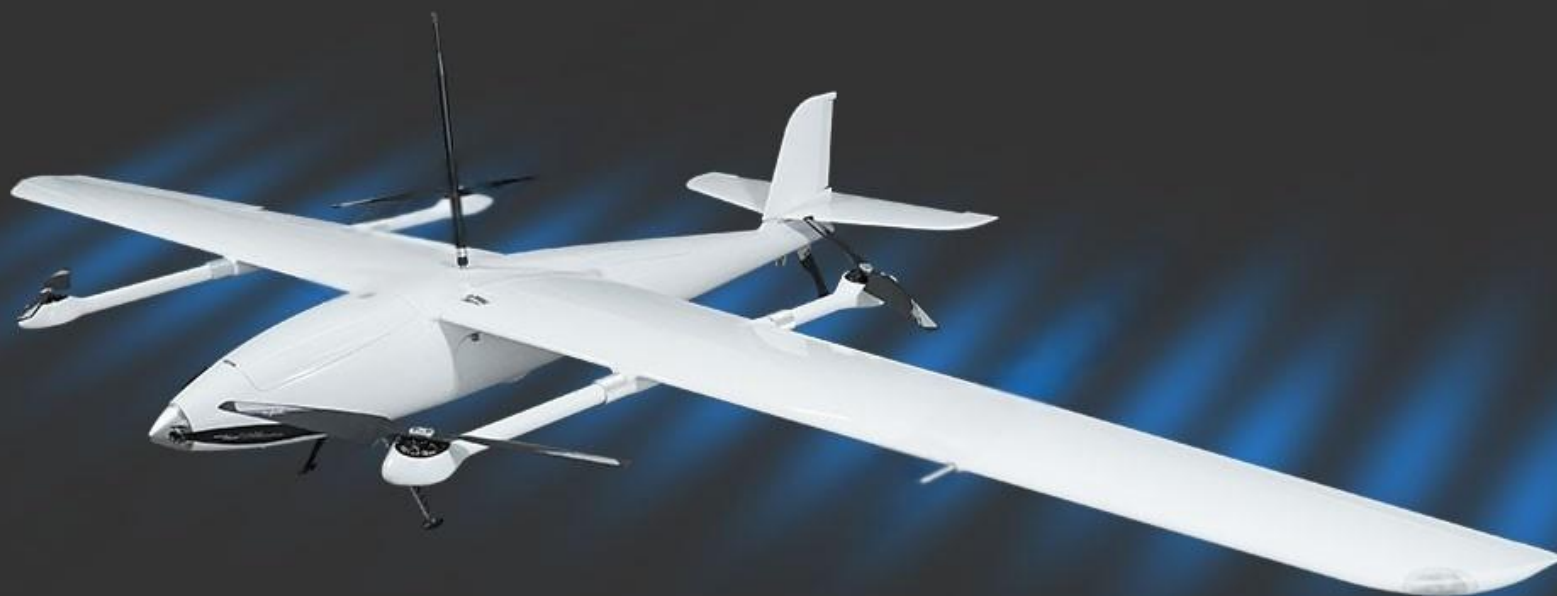

Modular Design

240 adopts modular design and can be quickly disassembled and assembled without any tools. it only takes 1 minute for fully set up.

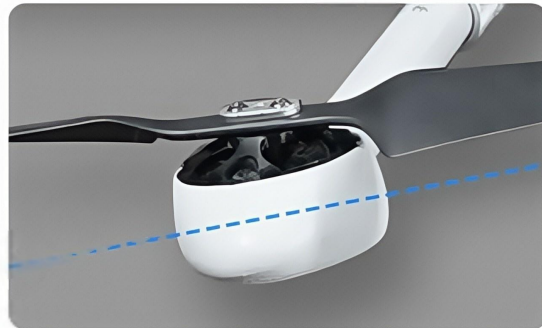

Flight endurance: 160min no load, 130min with 1kg payload, 120min with 1.2kg payload

Maximum Take-Off Weight 7kg

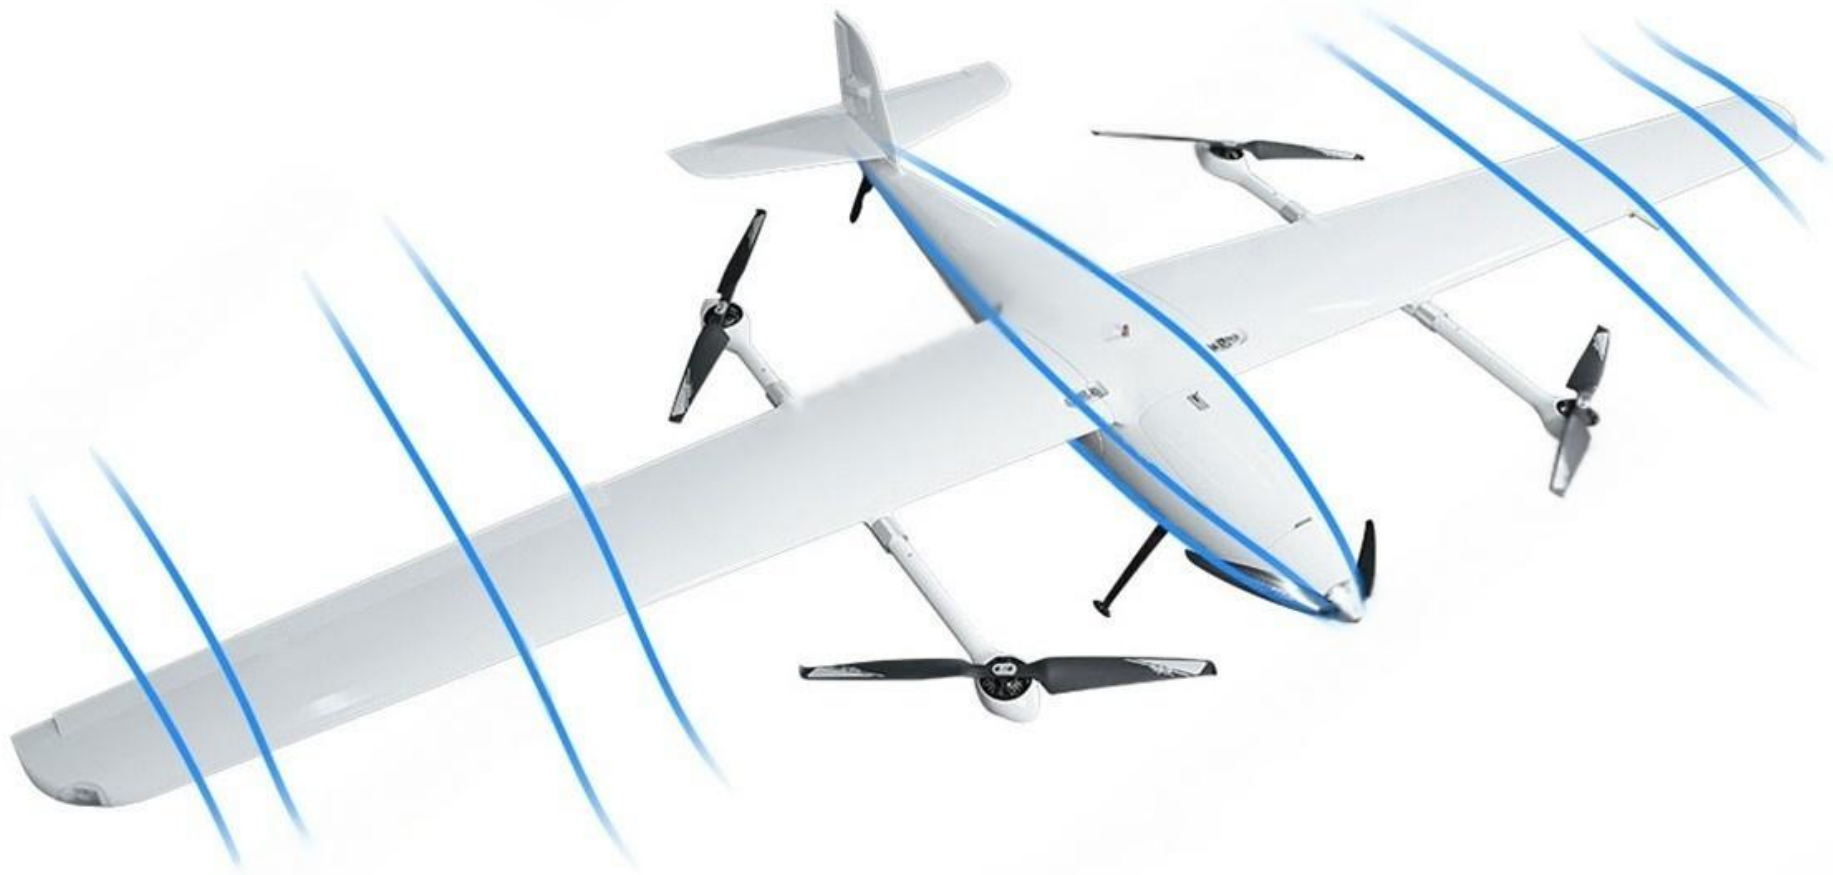

Motor Feature

Motor tilt design,
effectively improve
flight stability.

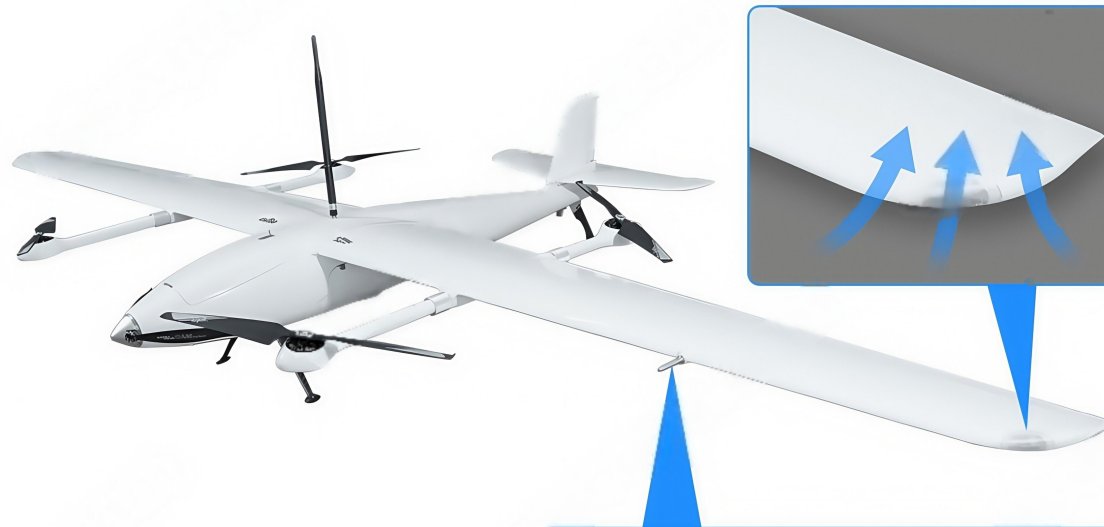

Aerodynamic design

Aerodynamic design ensures smooth and stable flight, efficiently reduces air resistance and power consumption

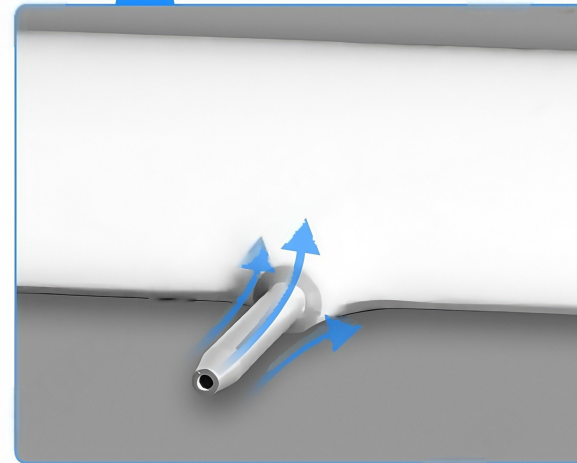

Reduce Flight Resistance

Through optimizing the design, the navigation lights are integrated into the wingtips to reduce flight resistance.

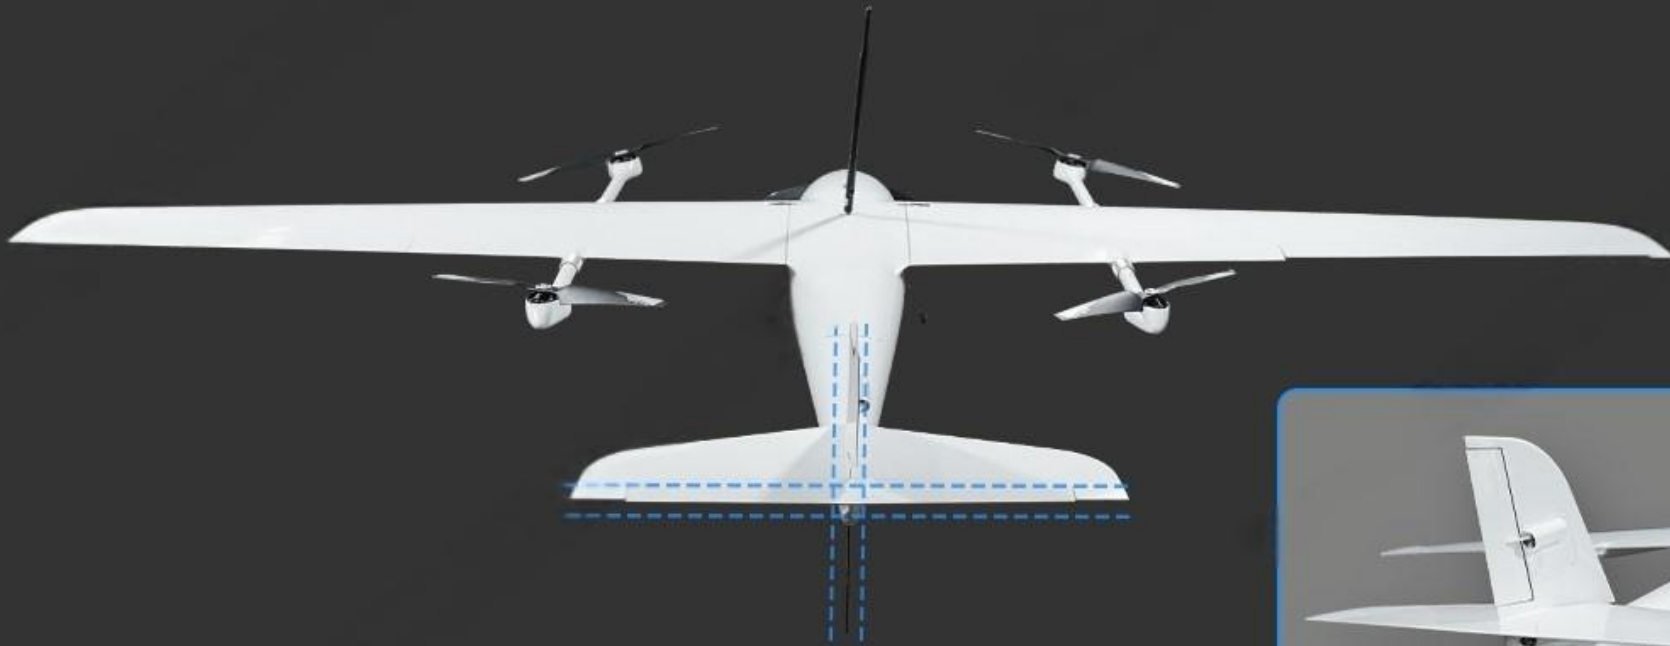

Airspeed Meter

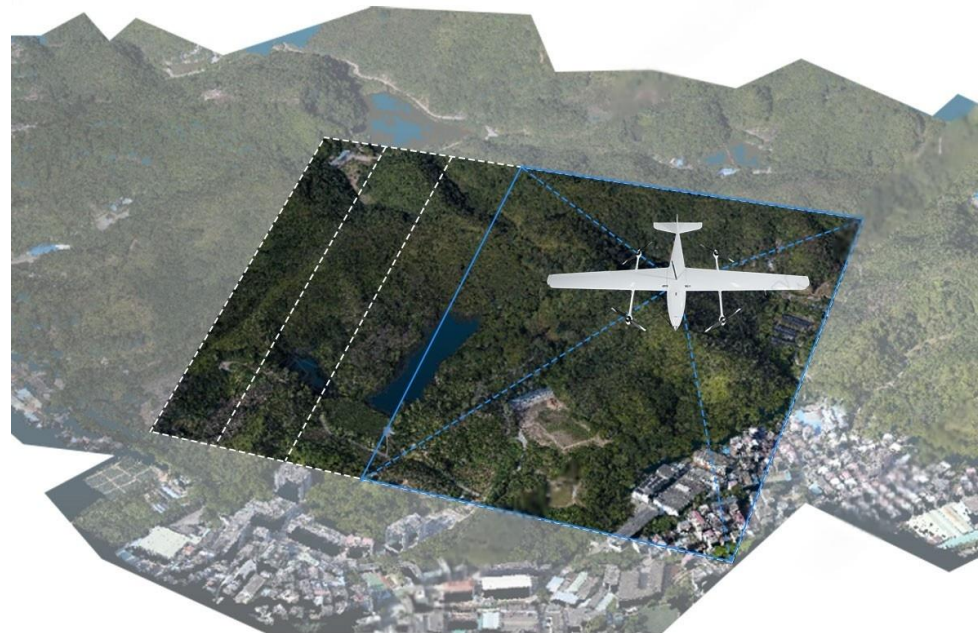

Airspeed meter is installed near the wingtip position to reduce rotor airflow disturbance

Cross tail design for more stable flight.

It supports multiple mapping payloads: orthographic cameras, 5 lens 3D oblique camera, hyperspectral cameras, multispectral cameras.

Foldable Propeller

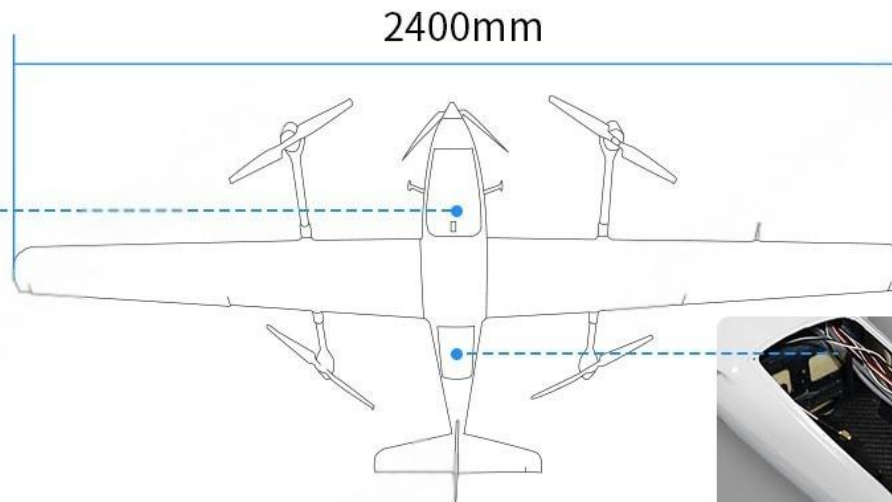

High efficiency front pull foldable propeller to prevent landing to the ground.

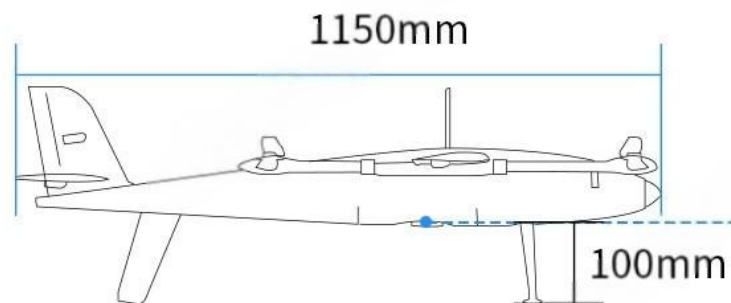

Dimensions

Battery compartment:
 $20 \times 9 \times 6\text{cm}$

Device compartment:
 $16 \times 20 \times 8\text{cm}$

Payload compartment:
 $20 \times 10 \times 6\text{cm}$

Package dimension

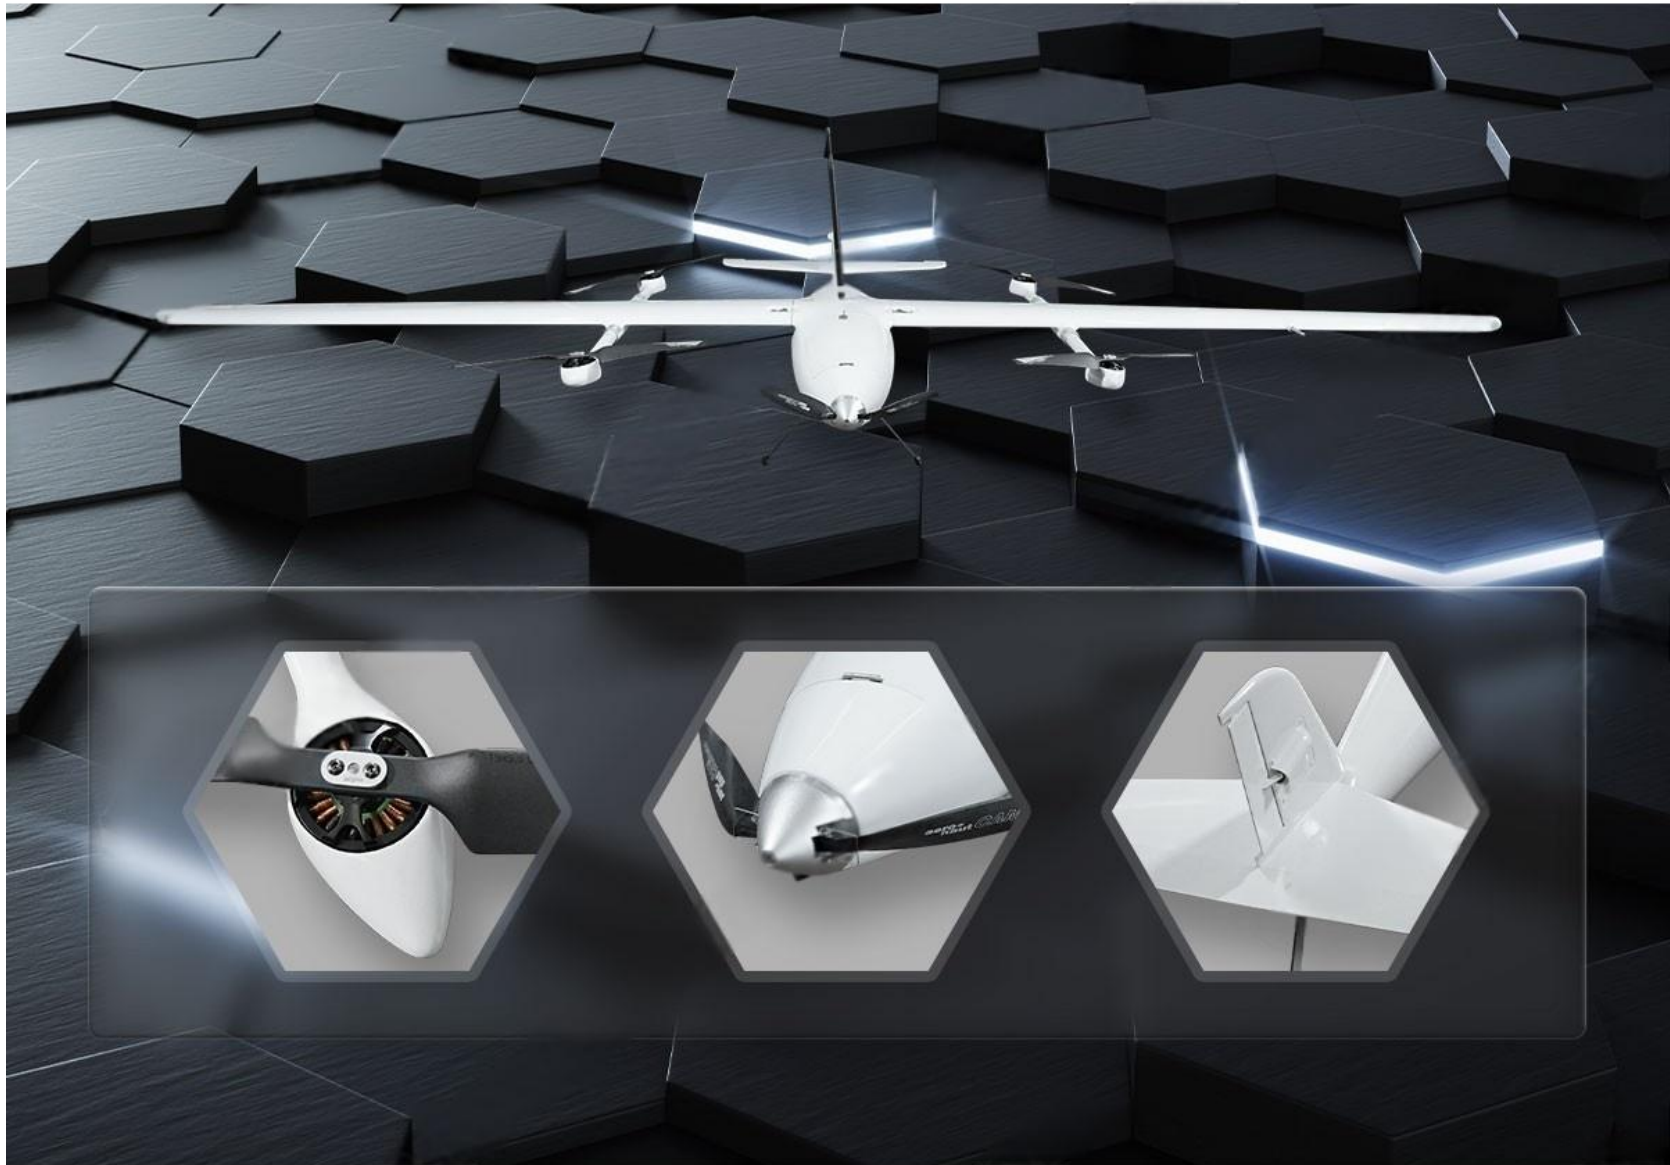

Package dimension: smaller packing case, more convenient for transportation.

VS

Excellent workmanship and quality assurance.
