

Pure carbon fiber material features high strength and high hardness while ensuring light weight and high performance.

M240 features custom **high-altitude propellers** that works well at high altitudes

M240 has a flight time of **120 min without load** and **30 min** endurance with a **load of 25kg**, which can meet various large-area strong continuous operation missions.

120 min

without load

30 min

load of 25kg

**Super Large
battery compartment
space**

410mm*140mm(Diameter*height)

With 4pcs 30,000mah batteries, flight
time 30 minutes with 25kg

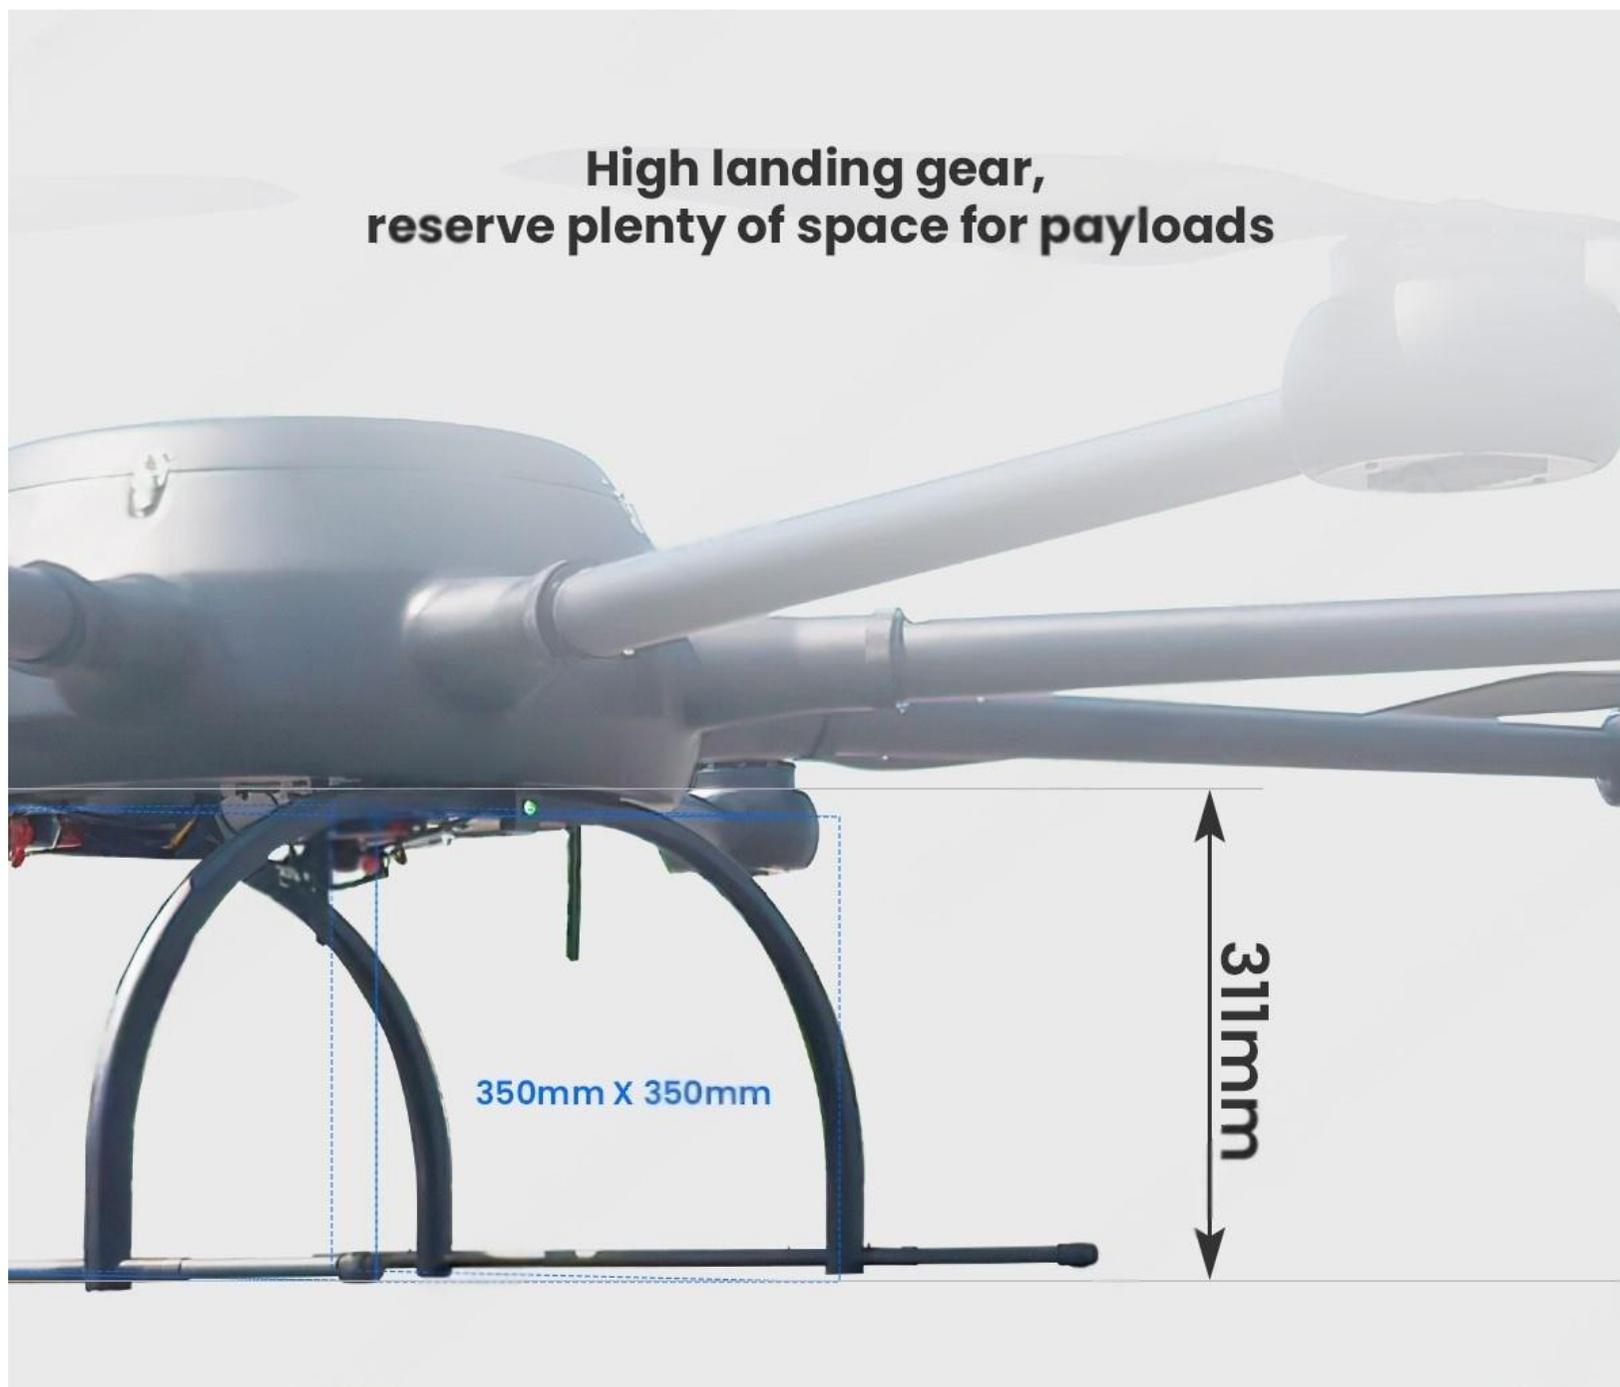

**Super Large
battery compartment
space**

410mm*140mm(Diameter*height)

With 4pcs 30,000mah batteries, flight
time 30 minutes with 25kg

**High landing gear,
reserve plenty of space for payloads**

Supports multiple types of payloads,
suitable for various applications
Mapping camera, Lidar, Fire
Extinguish bomb, Tear Gas
Launcher, Cargo Box

Lidar

**Mapping
Camera**

**Tear Gas
Launcher**

**Fire
Extinguish bomb**

Application

Widely used in firefighting, cargo delivery, survey and mapping, emergency rescue, law enforcement, power inspection, etc.

Well-compatible with various popular open-source autopilots, such as Cube Orange, CUAUV V5+, and X7+

Thousands of times tuning and flights ensure safety and perfect performance.
