

EXCELLENT CONTROL AND BALANCE EXPERIENCE

Throttle linear, strong power and excellent balance
ensures various and smooth flights.

DURABLE AND STRONG

High-quality imported bearings, combined with structural strength design ensures toughness for free fly.

VARIOUS MOUNTING WAYS

With the design of The Removable Prop Adapter, so the prop can be installed on Adapter and motor, and suited for fixed wing or Multicopter.

SAFETY & LONG ENDURANCE

High temperature(220°C) Military-grade wire improves the high temperature resistance extending the working life time of the motor.

High temperature

Extending life

POWERFUL OUTPUT EXCELLENT COOLING

The design with big torque and heat dissipation structure ensures the powerful flight and good heat dissipation performance.

ANTI-STRIPPING DESIGN SAFETY ASSURANCE

Cross type Shaft,plus the C-Clip lock shaft and shaft collar,to ensure the safety and reliability when the motor in high rotate speed.Safe flight without worrying the rotor loosening.

 Double Security
