

Unification of Art & Technology

Ultra-light design for longer flight time.

Weight: 280g(incl.cables), Max Thrust/weight ratio up to 40 while maintain its robustness.

To your satisfaction

Every little detail has been taken care of

Same magnetic circuit design as U8 LITE is adopted to U8 LITE L. Imported Custom Bearings. Simulated analyses are carried out based on the stress under operating condition in axial and radial directions.

Redesign of custom bearing contribute to prolong the bearing life to 1000h under normal operation
1500 flights are out of question

Excessive
power

Max. Thrust up to

11.2 kg
